## OCTOPI

- The plural of octopus is octopi!
- The prefix "oct-" means 8, like octagon, which is an 8-sided shape. The name "octopus" means they have 8 arms.
- Octopi are very smart. They learn easily by observing another octopus. People studying the octopi have seen them unscrew a lid to get what is inside a container. This shows that they can solve problems.

## SNAILS

- Snails are so diverse that there are land snails, sea snails and freshwater snails.
- Snails do not like hot, dry weather conditions. They like it moist or humid, and not too bright.
- A snail is most active at night and on cloudy days. Snails do not like sunshine and during the very cold weather they hibernate underground.
